<b>This application is for a:</b>	DIE Board Hearing
<b>Reason</b>	<p>Following the recent selection of a CRO by the CRO hiring committee, the question has been raised about whether the newly selected CRO will be able to participate in the selection of DROs and be a voting member of the DRO selection committee before they would be ratified by council. Given the unique situation of the current elections office and the time-sensitive nature of hiring DROs this late in the semester, I was hoping that the DIE board could interpret whether the CRO could participate in the selection of DROs prior to the ratification that would be able to be done on January 14th at the earliest.</p> <p>The specific legislation to interpret would be Bylaw 2100 5.1 to determine if it is reasonable to proceed with the DRO hiring process before Council is given the opportunity to ratify the selected CRO.</p>
