University of Alberta
Student Council 2018 - Open Studies

Greetings Golden Bears and Pandas!

My name is Breanna Palmer and it is my pleasure to act as your Open Studies Student Voice on Student Council at the University of Alberta, in Traditional Treaty 6 Territory.

Like many open studies students, I bring with me a mixed background of academic and professional experience in Alberta and British Columbia, and am presently focusing my academic pursuits in Women, Gender and Social Justice Studies.

Although uncontested in this Student Council seat this term, I believe the experience of participating is nonetheless important and enriching; and am happy to offer what I can, where I am, with what I have.

I have a few platform points that I feel are important:

- ✓ Open Studies 6 credit limit should be changed to reflect the desires of students as well as climate of other Universities.
- ✓ Sexual Assault/ Harassment/ Safety issues on campus

And am sure will develop a few more over the term as there are many important and complex issues concerning the University of Alberta students.

I look forward to serving and doing my part to uplift the whole people! Happy Studying!"
