Re: Vice President Student Life Council Report

---

Hi Council,

This week's report is kind of short and sorry that it's late :(

### **Advocacy**

The Students' Union continues to support the executives from **Lister Hall Students' Association** on their transition. Since Lister Hall does not have elected student representation at the moment, I am temporarily acting as the voice for the students in Lister until we establish a new representative body for the residence.

### **Council and Governance**

The entire executive team had the opportunity to tour the **Service Corridors** last week, thanks to **Mike** from **Facilities and Operations**. It was such an exciting experience to learn about the economics and scientific sides of the plants.

### **Access and Communications**

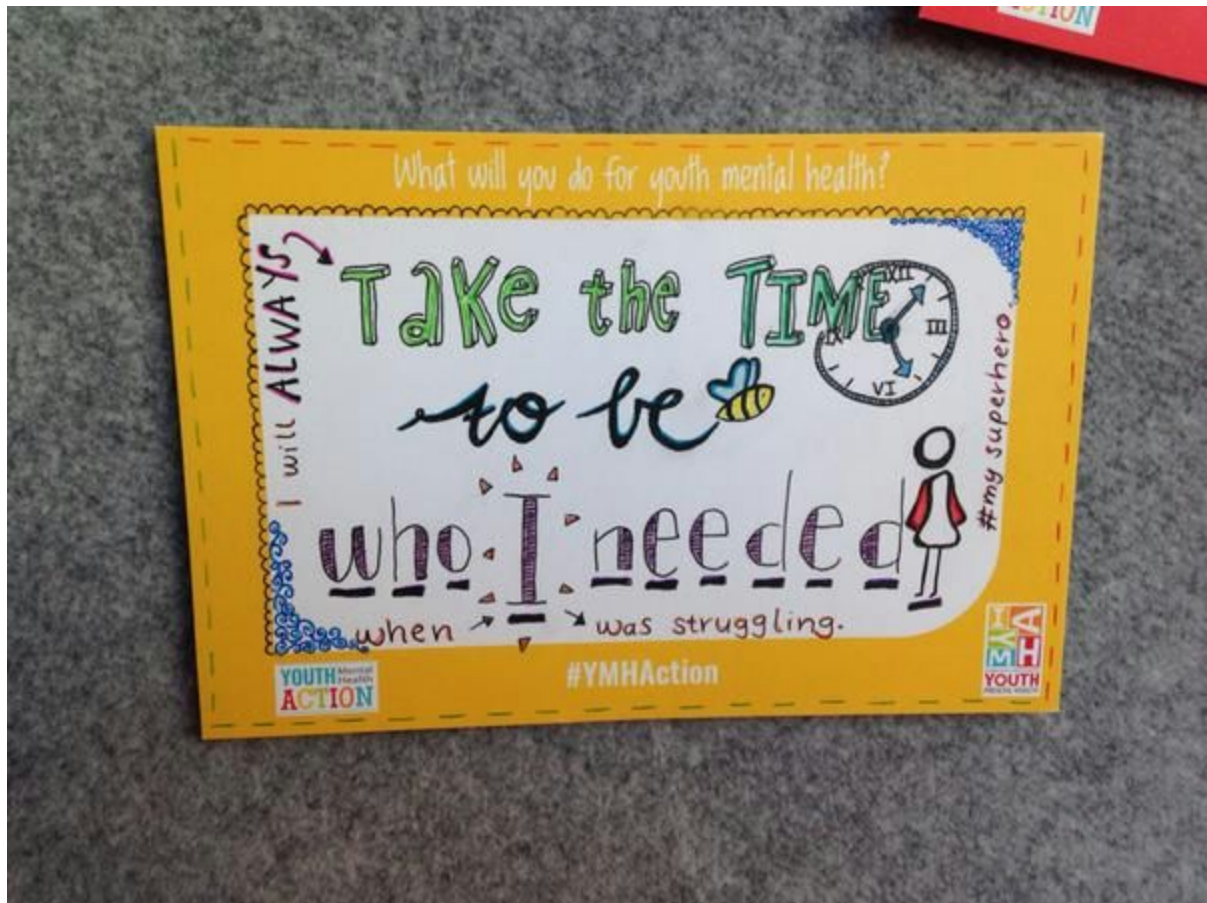

**VP Bondarchuk and I** have just completed our interviews with the **Director of Student Life** candidates last week. They were some strong candidates and we were super impressed by their performance. Looking forward to a great year with a new Director soon!

### **Student Groups and Associations**

We had dinner with the **ALES and Business Students' Association** last week and gave them a quick tour of 2-900. We had the opportunity to share with them our goals for the year, and hear about what they would like to achieve this year. It's always nice to meet enthusiastic student representatives.

### **Events**

It has been a long, but fulfilling week! I have just returned from Montreal after attending the **International Youth Mental Health** conference the past weekend. As always, if you would like to have a skim of the notes that I've taken, I'd be happy to share them with you! I was especially interested in the college mental health sessions and had the opportunity to speak with health services staff from various schools such as Stanford! I am excited to bring back these ideas and inspirations to see where I can apply them in my work.

Byes!
