

Undergraduate Board of Governors' Representative Report

Meeting of February 10th

Greetings Council,

The last Board of Governors meeting was held February 10th.

In this meeting the board rescinded the previous Church /Minos motion that established a consultation process on MNIF and approved a new motion that limits the consultation process to a committee level versus a student referendum. To my understanding, this was due to the feeling that a response from a student referendum tied the board's hands and that, ultimately, the board should be the only voting body for fees. During this vote, student's came to show their support against the issue. I would like to thank all students who showed up to the meeting and demonstrated a caring interest for their post-secondary education. There have been recent articles from the Gateway explaining the effects of this vote and I encourage students that have interest in this issue to read those articles.

Of note, at the last meeting we also voted in favour for a new master's program in coaching (MCoach) that will be offered by the Faculty of Physical Education and Recreation. Also, the PAW Centre saw the advancement of its project with the approval of the expenditure authorization request and its borrowing resolution.

Furthermore, for those running in the elections, I would like to wish you all the best with your campaigns.

The next meeting of the Board of Governors will be held March 16th in Council Chambers.

-Raphael Lepage Fortin
