

February 14, 2017

Dear Council,

It has only been one week since my last report, so I will keep this brief!

SWS

I had a meeting for the Writing Services Committee! It went well, at the meeting we started to draft our recommendations for writing services on campus. The main values the recommendations reflect include being; accessible, learner-centred, relevant, discipline based, responsive to diverse learner needs, collaborative, centrally coordinated, and sustainable.

Faculty Associations

In the past week I attended an Alberta Pharmacy Student Association meeting with Rebecca Taylor, as well as had an individual meeting with their President to discuss some advocacy happening within the faculty. I also presented at a business clubs council meeting for the Business Students' Association, on the process of transitioning between a student group and a department association. Lastly, VP Paches and I plan to attend the BSA candidates forum to support their elections!

Ad Hoc Committee on Governance

I have several sub-committee meetings for the ad-hoc committee on academic governance and delegated authority. At the GFC main subcommittee, we discussed issues including the process of asking written questions as well as having more strategic high-level discussion in the GFC setting.

Lister

I joined VP Ghossein in attending the Lister Hall Students Association AGM! This was very exciting. Big congratulations and thank you to VP Ghossein and the SU Lister Representatives for working so hard to try to establish a representative association in Lister again.

Thank you for reading this report and I would be happy to answer any questions you may have.

Marina Banister
