Re: VPOF 2018/19 Report

Dear Council,

WOW, Council! It's been such a long time! Jk, but it's nice to see you all again. I thoroughly enjoyed presenting to you last week on our capital plan; thank you for all of your feedback. It is very motivating to know that you care, so please continue to share your thoughts along the way. Although only 3 days have passed since meeting, I have a couple fun updates to share with y'all.

Vegan & vegetarian options

Although I mentioned in a report a couple weeks ago that my platform goal of adding veg options at the bars had been delayed, our incredible bar staff pulled something together for September! I am very pleased. Now, when you eat at RATT or Dewey's you'll find a separate little menu on the table highlight the veg options they have. We will look into bolstering the variety of selections come second semester, once the downstairs catering kitchen is up and running and can help with some of the prep.

SUB Creation Space

The SUB creation space is just about ready to go! Camera's have been installed, and all of the booking policy has been figured out. The only thing that's left to do is finalize a user manual for the space, and we're hoping it'll be open to members at the end of September. Students wishing to book the space can do it via Student Life Central.

Closing thoughts

Just wanted to end this report with a thank you to all you wonderful people! From tabling at WoW, to visiting the Be Book Smart Fair, to proxying for committees, the dedication many of you have been showing since being elected is truly incredible. You are an integral part of the Students' Union, and your actions go a long way in furthering our perpetual goal of become as strong of an organization as possible. Pat on the back! My next office hours will be Friday the 28th of September from 2:00-3:00. As shoot me an email if you'd like to meet at another time. Cheers,

Emma Ripka
