Re: VPOF 2018/19 Report

Dear Council,

Hello and welcome back! I hope you all had a wonderful break, whether spending time with family, binge watching Netflix, or just sleeping in a lot! I am looking forward to another semester of fun and productivity.

Small updates ('Cause Christmas)

My main focus since our last Council meeting has been on the Dewey's strategic plan and the deferred maintenance campaign. The former has proved to be challenging because I need to find a balance between being tangible and flexible so that it can be continued with future Executive transition. I'm hoping to have something presentable in the next couple of months. The campaign will be centered around deferred maintenance: what it is, why it is a problem and how it affects students. Our Executive Campaign Crew has been working with our marketing team to come up with the tone and content of the campaign. I will update more in my oral report.

Office Hours

If you'd like to book a meeting to discuss any of your goals, shoot me an email at emma.ripka@su.ualberta.ca, as I will be doing by appointment in lieu of office hours due to a busy January. Shout out to all the Councillors that have done so already! I wish you all the best with this semester!

Cheers,

Emma Ripka
