To: Students' Council

Re: Report to Students' Council

Hey Council!

I hope the last week or so has been good! I imagine many of you are settling into summer jobs/internships/summer classes. Things with the executive committee are getting back into a form of normality; changeover is a pretty crazy time. The new team is killing it, though! Speaking of team, the Oilers were eliminated this week and I am still fairly bummed. But hey, we did better than anyone would have expected! As Students' Council just met last week, this report will be brief.

On-boarding Summer Positions

Each summer, the Students' Union brings on approximately 3-6 summer positions with the Summer Temporary Employment Program and the Canada Summer Jobs program. This year, we have 3 positions that I'll be working with closely. The positions are a Business Analyst, a Fundraising Strategist and our Business Promotional Coordinator. This week I helped to bring the individuals up to speed and made sure they were welcomed and comfortable. I'm looking forward to seeing the awesome work they'll get done this summer.

United Way Committee

I am a member on the United Way Campaign Committee for the University of Alberta campaign. We met on Wednesday the 10th to sort out more of the details of the campaign, including creative strategies to encourage donation and communicating the value of the campaign. I will be spearheading the student engagement strategy, so stay tuned for that! I may need some student champions, so if helping the community is something you enjoy, let's chat!

Cheers,

Robyn Paches
