**To:** Students' Union Council

**Re:** Vice President Student Life 2020/21 Report #16

---

Hello council!

I hope you all had a restful and joy-filled winter break! This report is not going to feature a lot of new information since I have been on winter break, instead I am going to write out some of my priorities for this semester!

### **Sexual Violence**

As you are all aware, the sexual violence prevention coordinator vote passed unanimously through council! There will be quite a bit of work on this initiative as it goes through various committees. Beyond that, I will be working on the translation and resource updates that I mentioned in the fall. I and President Agarwal will also be working with the University on clarifying rules around relationships between professors and students. Finally, VP Draper and I will be working on addressing sexual violence on practicums.

### **Mental Health**

I will be working on a mental health campaign this semester. This will happen later in the semester so I will be updating you on the details later in the semester.

### **EDI**

I have quite a few EDI things that I am working on this semester. EDIT will be doing it's consultation, I am hoping to bring the policing policy to council this semester, we have another Speaker Series coming up, and I am continuing work with the University's student equity survey. I am still working on a few other initiatives that I will share when I have further updates.

### **Residence**

I will be working with CORA to set our priorities for this semester. I am hoping to prioritize residence in our mental health campaigns.

### **Daycare**

I know I have mentioned quite a few times now that I have been working on a daycare project but I am not able to discuss it yet. I am still not able to discuss this but I will be hopefully bringing it in our next few meetings.

**Menstrual Products**

VP Krahn and I are going to prioritize getting dispensers up with menstrual products in them. It has been a tough year for fundraising but we are still committed to this initiative.

There's lots going on with only a few months! I'm looking forward to working with y'all this semester! If you ever need to discuss anything, I am always here to talk.

Cheers,

**Katie Kidd**

University of Alberta Students' Union Vice President Student Life

Also, here is a picture of my donkey Rudy for reading this far!
